

Other focused conferences during WorldPharma2010

- 2: Transmembrane transport: perspectives for disease and drug discovery
- 3: Ion channels in analgesia and anaesthesia
- 4: Pharmacoepidemiology, current controversies and opportunities
- 5: Translational science in the metabolic syndrome: basic and clinical pharmacology
- 6: The heart gone wrong; stabilization of cardiac function
- 7: Simulation and data modelling in drug development. Better drugs faster?
- 8: Developments in the treatment of sexual dysfunction and diseases of the lower urinary tract
- 9: Inflammation and immunopharmacology: new tools for old diseases
- 10: Drugs for half the world: paediatric clinical pharmacology
- 11: G protein-coupled 7TM receptors:
from molecular to physiological function
- 12: Ion channelopathies:
new windows on complex disease and therapy
- 13: Maximising benefits and minimizing harms from drugs
- 14: Addiction and doping:
neurobiological and clinical basis of emerging treatments
- 15: Endothelium in health and disease
- 16: Natural products: past and future?
- 17: New approaches and targets in psychiatry
- 18: Nuclear receptor targets for treatment of diseases

WorldPharma2010

16th World Congress on Basic and Clinical Pharmacology.
July 17-23, 2010, Copenhagen, Denmark

WorldPharma2010 will include a
2-day focused conference on

**Clinical pharmacology in the
emerging countries**

19-20 July 2010

Abstract deadline 15 January 2010
Early bird registration deadline 15 March 2010

Invitation

July 17-23 2010 is the time for a major event for pharmacology, the science of how drugs affect the living organism. Basic and clinical pharmacology, kept separate for too long, have come together again to encompass the whole process of drug development from molecular biology to clinical practice. This remarriage is to be celebrated in Copenhagen; the world's basic and clinical pharmacologists and all those dealing with the development and use of drugs will meet to discuss how we can work together to meet the need for safe and effective medicines at affordable prices.

WorldPharma2010 is organised by the Danish Society for Pharmacology jointly with the British Pharmacological Society under the auspices of the International Union of Basic and Clinical Pharmacology, IUPHAR.

In the scientific programme, there will be plenary lectures, poster sessions, sponsored symposia, workshops, satellite meetings and focused conferences. Each of the 18 focused conferences contains 4 or 5 half-day sessions all belonging to the same theme. Overleaf is the detailed programme for the focused conference entitled:

"Clinical pharmacology in the emerging countries"

The titles of the other focused conferences are listed on the back of the folder.

In each session there will be free communications as well. We promise you a scientifically excellent programme as well as the opportunity to savour the atmosphere of Copenhagen.

Kim Brøsen
President

Michael Mulvany

Clinical pharmacology in the emerging countries

Focused conference leader: Lembit Rågo

Session 1 Clinical pharmacology and promotion of rational use of medicines in emerging and developing countries

Chairperson:
S. R. Hill

- Clinical pharmacology in developing countries: overview of current status and future trends
A. Walubo, South Africa
- Promoting clinical pharmacology in developing countries through education and research training
F. Sjöqvist, Sweden
- Update of the WHO publication on clinical pharmacology 1970: what we learned from the process and main outcomes
S. R. J. Maxwell, UK
- Is WHO's Essential Medicines List contributing to the rational use in developing countries?
A. L. Gray, South Africa

Session 2 Clinical pharmacology and drug regulation in resource limited settings

Chairperson:
A. Irs

- Regulatory clinical pharmacologist – an ambassador of sanity
A. Irs, Estonia
- Objective drug information versus advertising
K. Weerasuriya, India
- Drug utilisation monitoring: planning interventions and guiding selection
V. Vlahovic-Palcevski, Croatia
- Advise on drug reimbursement issues: a developing country perspective
V. Zarate, Chile

Session 3 Clinical trials in countries with developing and emerging economies

Chairperson:
L. Rågo

- Global drug development in Singapore: regulatory perspective
Y.-T. Foo, Singapore
- Ethical issues related to the clinical trials outside ICH regions
J. Karbwang-Laothavorn, Switzerland
- Clinical trials in resource and infrastructure poor settings: a view point from an investigator in the field
K. Awadzi, Ghana - TBC
- Clinical trials registries in countries with emerging and developing economies: impact to the clinical research
D. Gersh, Switzerland

Session 4 Pharmacovigilance in emerging and developing countries: a luxury or a must?

Chairperson:
A. C. Isah

- Specific features of medicines safety and pharmacovigilance in Africa
A. C. Isah, Nigeria
- Pharmacovigilance in China: recent progress and future challenges
TBA
- Pharmacovigilance as part of regulatory framework: Brazilian experience
M. F. Dias, Brazil
- WHO Programme for International Drug Monitoring as an effective framework for strengthening national pharmacovigilance systems
L. Rågo, Switzerland
